Respect

Compassion

Courage

## *Ofcom report 2024:*

*Compared to last year, a higher proportion of all 5-7s use apps/sites to do the following things online: to send messages or make voice/video calls (from 59% to 65%), use social media sites/apps (from 30% to 38%), watch livestreaming apps or sites (39% to 50%) or game online (34% to 41%). Children this age are also more likely than they were last year to use WhatsApp (from 29% to 37% TikTok (25% to 30%), Instagram (14% to 22%) and Discord (2% to 4%).*

“I have a phone, a laptop and a tablet. I don’t share them with anyone”  
- Year 1

“I go on my phone every day. I don’t go on it with an adult”- Year 2

What is E-Safety?- “If you go on an app you might not be sure what it is so you need to be safe” “If you see a random number do not answer it”- Year 3

What games do you play online? “Roblox, Fortnite, Minecraft, Fallguys, Mario Party.”- Year 3 90% off those asked said they do this without an adult in the room.

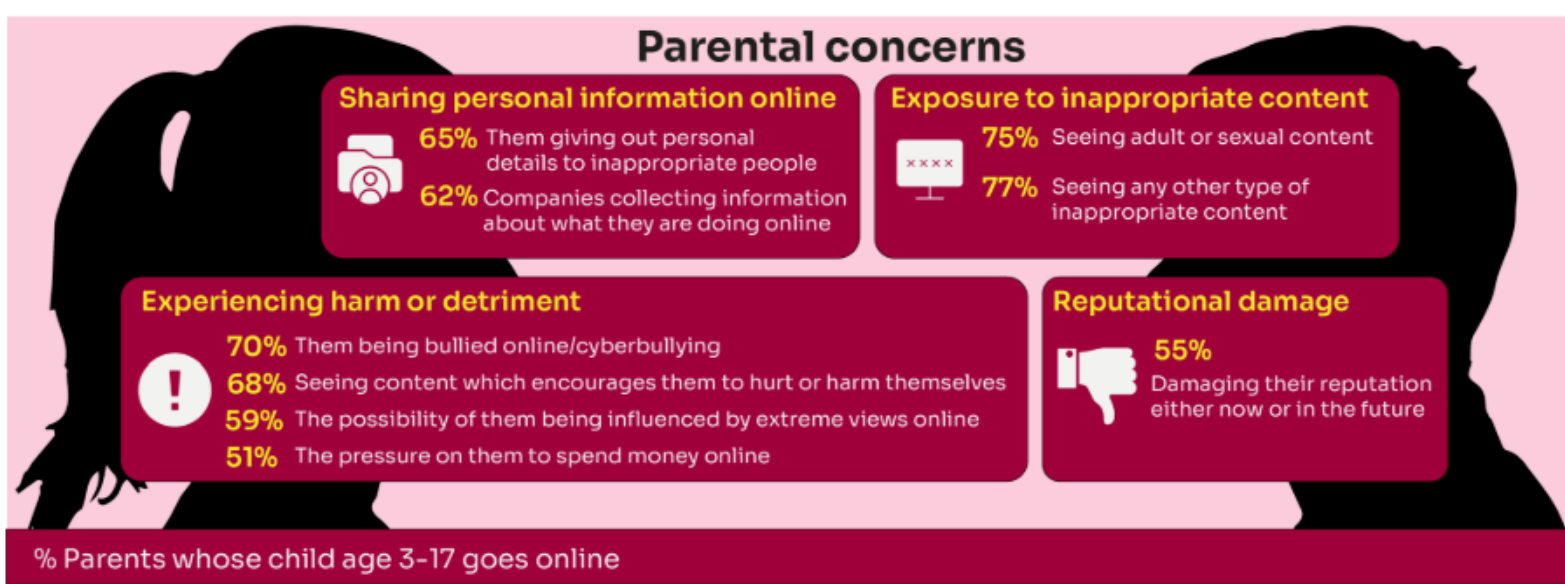

“I message my friends everyday. I use WhatsApp and Instagram”-Year 5

# How to talk to your child(ren) about staying safe online

## Summary of parental concerns (3 - 17 yr-olds)

Source: Children and parents: media use and attitudes report 2024

## You don't need to be an expert ... be a parent

- **It's your choice** - Don't let others dictate when the right time is to use tech.
- **Stay involved** – make time to communicate, talk about what they are doing. What do they enjoy? What makes them laugh?
- **Don't quiz them** – have regular conversations. What's their favourite app? What is the best site to learn new things from?
- **Join in** - watch them play a game and join in. Who are they playing with? Do they know the other players?
- **'Show me how...'** – ask their advice to help you with your privacy settings, who you should add as a friend, are there any risks?
- **Lead by example** - children learn as much from watching as they do from being told not to do something, so model good behaviour
- **Reassure them** - tell them that they won't get in trouble and that you are always there to help.

## PARENTSAFE

*Keeping your children safe: online & beyond*

This page is for parents - if you are a teacher, click [here](#)

It's never easy to know how to keep our children safe when they aren't with us, and sometimes even when are, if we don't know what's happening in their lives or on their devices! Who are they talking to, what are they doing, are they okay? Don't despair though...scroll through this page for help or click a button to go straight to a particular topics.

# Parental controls on devices

## Have you set up parental **CONTROLS/PRIVACY SETTINGS** for **ALL DEVICES** and **NETWORKS**?

- Controls have to be set up on both the broadband connection AND each individual device
- These do not come as standard so it's worth checking
- They are important because they allow you to:
  - **Block and filter** upsetting or inappropriate content or sites
  - **Plan what time and how long** your child can go online for

Visit [www.internetmatters.org/parental-controls/](http://www.internetmatters.org/parental-controls/) to find out how to set controls on devices:

## Set up devices safely

Set parental controls on a range of devices, apps, and platforms with our how-to guides.

### Smartphones & other devices

Select the smartphone, other device or OS from the dropdown list:

VIEW ALL

### Broadband & mobile networks

Select your network provider from the dropdown list:

VIEW ALL

### Social media

Select the social media app or platform from the dropdown list:

VIEW ALL

### Video games & consoles

Select the video game or console from the dropdown list:

VIEW ALL

## REMEMBER

- ↓ As children get older, restrictions and controls you use will change, but only at a pace you feel is appropriate for your child, not pressure from your child *“because everyone else is allowed”*
- ↓ Content filters are never 100% effective, at some point your child may come across inappropriate or upsetting content, so *make time to talk regularly*

## Why not have a family agreement to:

- **clarify** what is allowed...or not
- **establish** ground rules like no phones at the table or in the bedroom at night-time
- **agree** shared expectations to reduce arguments and keep everyone safe & healthy

## Digital Family Agreement

## Digital Family Agreement

LGfL DigiSafe®

*I will:*

*Why?*

Check with mum before getting a new app or game or buying an add-on so she can check it's safe

Set up privacy and safety settings on any apps and sites I use and show them to dad, so he doesn't worry

Check with mum or dad before going live and explain what I can do to avoid any risks

Not post or share any personal information, e.g. mobile, address, to stay private and safe

Put my phone down when we're eating together or mum or dad want to talk, as it's respectful

Turn off notifications when I'm doing homework and at bed time, to help concentrate and sleep

Come off my devices an hour before bedtime to unwind and sleep well

*If there are any issues:*

*We will talk about it calmly and respectfully  
I may have to show you more about what I am doing on devices, or other consequences*

*Parent/carer will:*

*Why?*

*Put our devices down when you want to talk to me/us so we can model good behaviour*

*Keep our mobiles away for important family time, e.g. breakfast and dinner so we can have quality time and talk*

*Trust you to manage your screen time sensibly as we agreed, and only say something if I/we are worried, to help you stay safe and healthy*

*Ask permission before sharing any photos of you, to respect your privacy*

*If I'm worried by anything:*

*I can tell mum or dad and they won't judge me  
I can talk to Ms Patel at school  
I can contact Childline or The Mix*

Signed: *Sophie Mum Dad*

Today's date: *24th March*

Date we will review this: *24th May*

# Age requirements for apps and games

- Nearly eight in ten children are aware of minimum age requirements
- **Four in ten admit to giving a fake age online** to access a new app/site
- Up to a quarter had **changed their date of birth** on their profile since initially setting it up:
  - Facebook (24%)
  - TikTok (23%)
  - Instagram and X/Twitter (both 19%)

[Children's Online User Ages 2023 Quantitative Research Study](#)

# Halsford Park Primary School

## Around half of children under 13 use social media and 38% have their own profile on at least one platform

%age who use social media

You must be 13 years and older to have an account.

We require everyone to be at least 13 to use Instagram

Snapchat is Only for Teens Ages 13+

Given the 13+ minimum age requirement on most of these social media platforms, it is notable that half (51%) of children under 13 use them.

## Setting rules about the way you use technology as a family

You can't have control over everything your child does and how they behave on the internet, but having a family contract or agreement sets out some expectations of how everyone can go online positively and safely.

Being involved in setting the 'rules' will help your child feel that their opinion matters and that they have a say. It will help them understand why there are rules about internet use and feel fairer than being told *"this will happen"* without explanation.

It's also really important that adults – you – follow the rules as well, and act as role models. Children will copy what you do and will pick up on and question you if there is one rule for them and another for adults.

### Things to say:

*"What rules do we need so we're all using the internet safely?"; "What do you think should happen if someone doesn't stick to the rules?"; "Why do you think this is a good rule?"*

### Example rules

Families should agree rules which are right for them, but examples of digital ground rules might include:

- Always have the door open when using devices;
- Put devices away at mealtimes;
- Make sure all devices are downstairs at bedtime;
- Tell someone if we see or read something that worries us;
- Be open about what you are looking at online if someone asks.

You can find a template for a family agreement from Childnet [here](#).

## Education for a Connected World – 2020 edition

A framework to equip children  
and young people for digital life

UK Council for  
Internet Safety

Education for a Connected World is a tool for anyone who works with children and young people. It enables the development of teaching and learning as well as guidance to support children and young people to live knowledgeably, responsibly and safely in a digital world.

Children have the right to enjoy childhood online, to access safe online spaces, and to benefit from all the opportunities that a connected world can bring to them, appropriate to their age and stage.

It is essential that education young people require to thrive in the digital environment is planned across the entire curriculum and as part of a whole school approach to digital learning and online safety.

## Self-image and identity

This strand explores the differences between online and offline identity beginning with self-awareness, shaping online identities and media influence in propagating stereotypes. It identifies effective routes for reporting and support and explores the impact of online technologies on self-image and behaviour.

## Online relationships

This strand explores how technology shapes communication styles and identifies strategies for positive relationships in online communities. It offers opportunities to discuss relationships, respecting, giving and denying consent and behaviours that may lead to harm and how positive online interaction can empower and amplify voice.

## Online reputation

This strand explores the concept of reputation and how others may use online information to make judgements. It offers opportunities to develop strategies to manage personal digital content effectively and capitalise on technology's capacity to create effective positive profiles.

## Online bullying

This strand explores bullying and other online aggression and how technology impacts those issues. It offers strategies for effective reporting and intervention and considers how bullying and other aggressive behaviour relates to legislation.

## Managing online information

This strand explores how online information is found, viewed and interpreted. It offers strategies for effective searching, critical evaluation of data, the recognition of risks and the management of online threats and challenges. It explores how online threats can pose risks to our physical safety as well as online safety. It also covers learning relevant to ethical publishing.

## Health, well-being and lifestyle

This strand explores the impact that technology has on health, well-being and lifestyle e.g. mood, sleep, body health and relationships. It also includes understanding negative behaviours and issues amplified and sustained by online technologies and the strategies for dealing with them.

## Privacy and security

This strand explores how personal online information can be used, stored, processed and shared. It offers both behavioural and technical strategies to limit impact on privacy and protect data and systems against compromise.

## Copyright and ownership

This strand explores the concept of ownership of online content. It explores strategies for protecting personal content and crediting the rights of others as well as addressing potential consequences of illegal access, download and distribution.

## Guidance

# Teaching online safety in schools

Updated 12 January 2023

This **non-statutory** guidance outlines how schools can ensure their pupils understand how to stay safe and behave online as part of existing curriculum requirements.

It complements existing subjects including:

- relationships education
- relationships and sex education
- health education
- citizenship
- computing

There are no additional teaching requirements.

# Self-Image and Identity

Ages 8-9

I can explain how my online identity can be different to my offline identity.

Self-Image and Identity

I can describe positive ways for someone to interact with others online and understand how this will positively impact on how others perceive them.

Self-Image and Identity

I can explain that others online can pretend to be someone else, including my friends, and can suggest reasons why they might do this.

Self-Image and Identity

## Activity Descriptor

Begin by recapping what is meant by an 'identity' by drawing on the discussions from the previous section and the definition below:

**Identity** [noun] (*Cambridge Dictionary*) - Who a person is, or the qualities of a person or group that make them different from [or similar to] others.

This could be made up of many different parts, such as our physical features, facts about ourselves, our experiences and feelings

Explain to the children that the way we behave online and treat others can also form part of our identity. For example, if you were to always post funny pictures and videos, people online may think of you as a funny, light hearted and optimistic person. You may wish to allow time for the children to think of their own ideas of things which people could post and what that might make others think about them.

Toolkit ► Resources ► Year Group ► Year Four ► Self-Image and Identity

## Self-Image and Identity

I can explain how my online identity can be different to my offline identity.

### Outcome Criteria

I can explain how my online identity can be different to the identity I present in 'real life'.

I can explain the reasons for and against changing your identity online and explain how someone might do so.

I can describe the right decisions about how I interact with others online and how this will impact on how others perceive me

**Primary School**

Any questions?

*If your child is walking home from school, they may bring a mobile phone into school if you wish. These will be given to the teacher at the start of the day, locked in the classroom and returned to them at the end of the school day.*

*Please note- mobile phones should not be brought into school if your child/ren are picked up by you either on the playground or near the school entrance.*

*They should only be brought in if you need to communicate with your child because they are walking home. They should not be brought in as an accessory.*

*Children who bring in mobile phones must keep them in their bags once on the school premises (this includes the school drive and playground). Once in school, mobile phones should be handed in upon entering the classroom. Children will be given back their mobile phones at the end of the day on the playground.*

We have already shared in Parent Forum and plan to in a workshop in Autumn 2 the proactive measures we already take as a school by sharing the scope of our online safety / PHSE curriculum. Our clear stance on educating pupils in line with statutory expectations. There is some helpful information in the [statutory guidance for RSHE](#):

*95. Pupils should be taught about the benefits of rationing time spent online and the risks of excessive use of electronic devices. In later primary school, pupils should be taught why social media, computer games and online gaming have age restrictions and should be equipped to manage common difficulties encountered online.*

*116. At the heart of these subjects there is a focus on keeping children safe, and schools can play an important role in preventative education. Keeping Children Safe in Education (KCSIE) sets out that all schools and colleges should ensure children are taught about safeguarding, including how to stay safe online, as part of providing a broad and balanced curriculum.*

*117. Good practice allows children an open forum to discuss potentially sensitive issues. Such discussions can lead to increased safeguarding reports. Children should be made aware of how to raise their concerns or make a report and how any report will be handled. This should include processes when they have a concern about a friend or peer.*
